**WINDJAMMER LANDING, ST. LUCIA, COMPLETES
FIRST PHASE OF ‘NORTH POINT VILLAS’ EXPANSION**

To-Date, More Than US\$42 Million Invested in Resort Enhancements

LABRELOTTE BAY, Saint Lucia (March 2017) – Windjammer Landing Villa Beach Resort (www.windjammer-landing.com), located on the north coast of Saint Lucia, has completed the first phase of its expansion project including the addition of four new luxury estate North Point Villas.

Windjammer Landing’s brand new North Point Villas

The new North Point Villas are part of a US\$33 million expansion project at the resort that included a major beach expansion and the creation of The Spa at Windjammer Landing. In addition, the resort has embarked on a US\$9 million renovation project upgrading the existing room categories, which will include new fixtures and furniture. Many units are also receiving updated kitchens and bathrooms. The first three pairs of Ocean View Rooms have been converted to spacious one-bedroom Ocean Villas.

North Point Villas

With the addition of the new North Point Villas, Windjammer Landing has raised the bar of luxury holiday standards with four stunning new villas that are available for vacation accommodations as well as shared ownership. Perched on the north end of the Mediterranean-inspired hills in Saint Lucia, the newly constructed two and three bedroom North Point Villas are a spectacular addition to the resort.

The North Point Villas are the first of 26 luxury villas to be built and are available as upper level or ground level units. Ground level villas feature outdoor showers, generous outdoor living spaces and lavish infinity edge pools, while the upper level villas boast outdoor kitchens and dining areas in a roof top terrace with a sun deck and individual rooftop pools that appear to flow into the ocean.

The interior aesthetic of each villa is contemporary and comfortable. Furnishings feature a Caribbean-style, easy living flair. The texture of natural wood contrasts with limestone floors, crisp white walls and natural shell stone bordering the exterior spaces. These are accented by tropical shades reflected in the artwork by local artists; this rich culture breathes life and personality into the interior space.

“The North Point Villas bring luxury vacations to a whole other level – they are truly amazing in every way,” said Roney Francis, Operations Manager at Windjammer Landing Villa Beach Resort. “From the beachfront location to the state-of-the-art appliances – and everything in-between – these villas will exceed expectations of all upscale travelers,” added Francis.

Beach Expansion

As a part of its expansion project, the resort added 16,000 square feet of beachfront which included 4,000 tons of sand, three in-water hammocks, 30 towering coconut palm trees, 30 frontal palm trees and more than 1,400 new plants and flora. New tiki huts replaced older versions, 20 sunshade umbrellas were added, and sea turtle safe amber-colored lights were installed on the beach to prevent baby turtles from being confused by bright lights after hatching. The resort continues to enhance its beach offerings on an on-going basis.

The Spa at Windjammer Landing

Less than a year old, The Spa at Windjammer Landing features 5,200 sq. ft. of mindfully crafted contemporary space creating the ideal setting for guests to experience traditional spa therapies and holistic healing rituals focusing on the mind, body and soul. Adjacent to The Spa at Windjammer Landing, a fully equipped, 1,500 sq. ft. modern fitness center features state-of-the-art Cybex and LifeFitness equipment including elliptical machines, treadmills, stationary bikes and more, as well as free weights. A separate exercise studio and outdoor yoga deck provide the setting for a variety of classes including core conditioning and plyometric-inspired circuit training.

Dining Upgrades

Windjammer Landing has also made enhancements to its popular dining areas, including expanding Ember's Beach Bar, covering additional areas of Jammer's Restaurant and Bar and increasing the patio seating area in Dragonfly.

Windjammer Landing Villa Beach Resort, which welcomed its first guests in 1989, was designed by Barbadian architect Ian Morrison to look like a Mediterranean village. Brick paths meander through more than 60 acres of lush landscaping, scented gardens, sparkling pools, covered walkways, and hand-painted tiles.

Ideal for couples, families, multi-generational travelers, singles and groups, Windjammer Landing is renowned for its welcoming atmosphere, friendly staff, extensive activities, and signature all-inclusive vacation.

The resort offers 322 sleeping rooms among 190 units, including villas, suites and standard hotel accommodations. Guests can enjoy "Barefoot Luxury" with the perfect balance of culture, health and wellness, entertainment, romance and adventure for vacationers of all ages.

As a testament to the resort's reputation, Windjammer Landing has earned the TripAdvisor® Certificate of Excellence award for the last six consecutive years.

A Windjammer Landing Villa Beach Resort all-inclusive vacation includes accommodations; all meals and beverages at five on-property restaurants and four bars; the luxury of six swimming pools (most of the villas feature their own, private, residential or plunge pool); a 24-hour fitness center; water sports, including waterskiing, snorkeling and windsurfing; complimentary Wi-Fi resort wide; Jacquot Fun Club, with supervised daily activities for children 4 – 12 years of age; teen activities for kids 13 – 17; a weekly Manager's Cocktail Party; and the conveniences of a mini-mart and boutique shops.

Room-only packages are also available. All rates vary according to plan, selected accommodations and travel dates.

Windjammer Landing is 32 miles from Hewanorra International Airport (UVF) and five miles from George F L Charles Airport (SLU). Sample flight times from major cities include three-and-a-half hours from Miami, four hours from New York and five hours from Toronto.
